

DESCRIPTION

Swivel Shackles, Type-B, Grade 3, size ranging from 40 mm to 81 mm

Swivel Shackles are connected directly to the anchor shanks without using a Crown Shackle and Anchor D-End Shackles. While the larger side of the pin goes through the shank's bore, the smaller pin is directly connected to the first common link of the anchor chain cable. Crown Shackles, Anchor D-end Shackles, and Swivel Forerunners remain unnecessary with this setup.
